

# Things to consider

Can a user be with many orgs?  
No just 1 for now

Are super admins associated with no orgs?

Some interesting self-referencing going on here. The two organisation\_IDs have to be different - See image 3 for better diagram

Needs a constraint such that both org IDs can't be the same

Is this users field going to conflict with the current security stuff. - How to configure these with sprint security ASK PHIL
